

Is DiVA Right For You?

DiVA is a document management solution that is both rich with features and affordable. Imagine having secure access to your documents, anytime and anyplace.

- Do you pay for off-site storage?
- Do you have compliance issues?
- Are you looking to reduce the costs of paper supplies, labor for filing and document retrieval?
- Do you need to have simultaneous or remote access to your documents?
- Do you want true disaster recovery?

If you've answered 'yes' to any or all of these questions, then DiVA is the solution for you.

DiVA is a complete compliant secure document management system. From the point that a paper document becomes an electronic document to the easy web based retrieval - DiVA does it all. And it does it with the unique nature of your operation in mind. DiVA's focus is to provide a robust and cost-effective document management solution, yet afford a user-friendly experience. Requiring only a short learning curve, your staff will be comfortable using DiVA in no time at all, and you will be on your way to a paperless operation.

DiVA is an on-demand, subscription-based secure service delivered via the Internet. There are no unexpected costs with DiVA, no added support and no software installations necessary on workstations and your documents are accessible from virtually anywhere.

So, if you're looking to 'go paperless,' DiVA is the answer. Paperless IS possible. Our experienced document management implementation staff will have DiVA up and running in one day, and configured to your needs. Please contact your sales representative and start experiencing the DiVA difference today!
